

TINY THINGS: Scavenger Hunt

Do you ever put your nose right to the ground or your eyeballs only inches away from a tree? Here's your chance to look for the tiny things in life. Go into your yard and look closely, walk or crawl slowly. Examine the ground under your feet, the tree bark, the driveway, the side of the house. What do you find? You might find tiny spring flowers, pretty stones, old berries from last summer, insects, and maybe even a song bird eggshell. Draw what you find and give it a name!
