### About Meadowbrook Forest

The core 2000 acres of the forest were purchased in 2019, with the help of The Conservation Fund and federal money from the National Coastal Wetlands Grant Program and the Anahata Foundation. Several hundred acres were added the following year by the Lawrence Family Foundation and an anonymous donor. The whole forest is now **xxxx** acres. This is a manage woodland with more than 11 miles of dirt road, through a variety of forest types and wetlands. The main loop in the forest is a little over five miles.
