### About Patten Stream Preserve

Patten Stream Preserve was purchased, in 2008, thanks to support from private donors, Trust members, and the Warren Family. This 41 acres is home to fish runs, summer-blooming cardinal flowers, and glacial erratic boulders.

**1** SOUTH LOOP TRAIL: 0.6 Miles. Easy to moderate. Offers glimpses of the stream before it reaches Patten Bay, where boulders, both in the stream and along its banks, give the trail a dramatic air.

**2** NORTH LOOP TRAIL: 0.9 Miles. Easy to moderate. Use the connector trail from the South Loop to the North Loop. Passes a large rock outcropping before going along the stream and crossing a foot bridge. The trail reaches a point that offers spectacular views of the stream in both directions.
