Climate Change Worksheet

1. What is the difference between global warming and climate change?

2. What are fossil fuels and how do they cause climate change?

3. Name some examples of changes in climate or extreme weather. What are some recent extreme weather events that have happened around the world?

4. Why might people with higher incomes be responsible for more emissions?

5. What are other reasons why some people may have higher emissions than others? What are some barriers people face in reducing their emissions?
